WORK EXPERIENCE

ADP Software Developer -   (Apr. 2019 - Present)
Drupal Application Development:
- Worked with JQuery and AJAX to implement a chatbot so 50,000 users could get speedy responses to their IT and HR questions
- Fixed 20+ existing bugs to reduce user complaints and provide reliable functionality
- Reduced manual input of forms by 75% by securely sending form data via an API and then saved in an external system
- Followed a CICD process with Bitbucket and Jenkins to merge and deploy code
- Used PHP and postgres DB to develop interface for content owners to manage data and permissions
- Created an analytics page to display the time and date that content owners made edits to a page

Angular Project:
- Implemented Services and APIs to gather and present employee data within a search component
- To emphasize a congruent user experience, incorporated search components into existing applications
- Used SCSS and Typescript to create new components so users could seamlessly navigate HR cases
- Implemented test cases using shallow render to ensure reliability
- Worked with metadata driven form templates

ADP Global Product and Technology Intern -   (June 2018 - Aug 2018)
- Recreated REXX legacy program using java
- Incorporated IBM JZOS Toolkit for java development on the Mainframe
- Maintained Jobs on z/os using ISPF, JCL, and REXX

EDUCATION

Christopher Newport University -   (Aug. 2015 - May 2019)
Major: Computer Science, Minor: Leadership Studies

PROJECTS

Fantasy Soccer Web Application -
Developed a web application to create fantasy soccer leagues using AWS services
- Implemented AWS RDS, EC2, and Beanstalk to deploy website
- Applied Bootstrap for a seamless user interface
- Used MySQL for managing the database and PHP for backend

TECHNOLOGIES

Languages: PHP, Java, Python, HTML, CSS, SCSS, SQL, Javascript, Ajax, Typescript
Libraries: React, JQuery
Software: Visual Studio Code**,** Github, Bitbucket, Rally, Jira, Jenkins, Postman
Frameworks: Angular, Bootstrap
Cloud: AWS RDS, AWS EC2, AWS Beanstalk, AWS S3

LEADERSHIP AT CNU

Christopher Newport University Men's Varsity Soccer Team -
- Practiced and conditioned for 20+ hours a week while maintaining a full academic schedule.
- Developed commitment and determination as well as empathy, listening and communication skills.
